....September 2018

Our wake-up-letter dated June 26th, 2018 – Response from Mrs. Blinkeviciute

Anrede,

We would like to express our sincere thanks for enabling us to get in contact with Mrs. Vilja Blinkeviciute whose letter dated August 1st, 2018, has astonished us due to its shallowness (“We thank you for sharing this information and your views on the subject...”).

After all, abortion is always a matter of life and death. Voting on whether another human being is supposed to go on living or to die before his birth will always remain what it is: a brutal act of force, deeply undemocratic and dehumanizing. After all, an abortion is always a matter of life und death. It is a brutal act of force, deeply undemocratic an dehumanizing. There are things in life which must never be voted upon – and that is true for the vote on whether a human being is allowed to go on living or to die before his birth.

What has astonished us even more is the fact that there is some kind of a committee (FEMM) which claims to represent all the women of Europe (260 million) and all women worldwide (3.75 billion). As far as we know, an abortion mandate has never been conferred neither to FEMM nor to Mrs. Blinkeviciute. On the contrary, after extensive research it becomes evident that most women are appalled at this notion and do not at all agree.

For this reason we have sent Mrs. Blinkeviciute a letter in which we urge her to clarify matters.

We are asking you to use your authority in such a way that Mrs. Blinkeviciute is going to give unequivocal answers to our questions as soon as possible. That is of essential importance both for the women and the children and must therefore not be ignored.

God bless you and all those who are close to you.
