EU-Politiker Brüssel

June 26th, 2018

“Citizens must give discussions a new shape, must re-design them at the grass-roots level, right out of real life.” (Emmanuel Macron)

Dear Mr./Mrs.

It should be no news to you: As an EU politician you are counted among the most hated people in all of Europe. With an incessant flow of EU rules and regulations, never-ending crises around the Euro and, most recently, the destructive debate about refugees, you have paved your own way to this regrettably high level of animosity. But there is more: The flame of civic fury is constantly fed by the patronising and increasingly devastating manner in which you handle abortion:

**418 children are killed in the EU every hour = 3,345 each day
751 EU parliamentarians could be erased in just 1.8 hours at this rate**

You have been elected in order to ensure peace, stability and prosperity in a reliable manner and to make sure that every citizen benefits from employment, education and security – especially when it comes to the weaker members of society. Nobody has the right to decide whether another human being is permitted to live or not. A natural right as fundamental as the right to life can only be invalidated with utter brutality by the more powerful.

We are calling upon you: Do not oppose the UN, the majority of doctors (see the back of this page) and the majority of citizens whose anger has already been ignited. Protect the unborn children! And consider this: Your voting behaviour and with it your personal responsibility will inevitably be a matter of record and always be there for future generations to judge.

Yours sincerely,

Sonja Dengler,
Chairwoman
