Our wake-up-letter dated June 26th, 2018

Anrede,

We would like to express our heartfelt gratitude for the enormously positive reactions to our wake-up letter. It is so good to see that there is a political majority in the European Parliament which is opposed to abortion. We thank you for your clear and commendable stance. Many of you were astonished that we had sent our letter to all 751 MEPs. By doing so we wanted to make sure that we provide everyone with the same knowledge simultaneously, regardless of each one's voting behaviour in the past. Surely we can agree on the fact that there are some things in life that humans must not subject to a vote. After all, abortion will always remain what it is: a cruel act of force, deeply undemocratic and dehumanizing.

As a next step in our campaign, today we are letting you have a copy of our letter to Mrs. Blinkeviciute, chairwoman of the *Committee of Women's Rights*, in which we ask her for answers to our questions in order to clarify the situation. *This committee* claims to represent 260 million European women and 3.75 billion women worldwide. Despite expensive research we were not able to ascertain when and where such an enormous abortion mandate has ever been conferred.

In order to get answers from the committee soon, we need your personal support. We are sincerely asking you for your help to protect the unborn and thank you for your commitment.

Yours sincerely,

Sonja Dengler
